What is the Utah Breastfeeding Coalition?

Established in 1992, the Utah Breastfeeding Coalition is a group of individuals and organizations who share a common goal of supporting, promoting, protecting and celebrating breastfeeding in Utah. Our membership includes health professionals, concerned parents and citizens and volunteers from community organizations like La Leche League.

Coalitions such as the UBC exist globally in support of breastfeeding. Below is the international symbol, which denotes that breastfeeding is supported where displayed.

Coalition Goals

- Encourage women to initiate and continue breastfeeding
- Increase public understanding that breastfeeding is the normal course for nourishing children and that efforts to undermine breastfeeding are serious threats to the health of children and women
- Contribute to a supportive and accepting social environment with respect to breastfeeding
- Promote and support model policies and practices in communities, hospitals, businesses, health care systems, worksites, and child care facilities
- Encourage active support for breastfeeding among key community leaders

Member Benefits

- Discounted rates to UBC sponsored lactation education events
- Quarterly newsletter filled with local and national lactation events, information and research
- Opportunity to access and be listed in breastfeeding friendly healthcare provider directory
- Network with others committed to breastfeeding
- Invitation to bimonthly USBC call with pertinent breastfeeding topics
- Help promote, protect and support breastfeeding in Utah
